Set features and values for scenarios

Age	5 ~ 50
Income level	High, Mid, Low
Survival Chance	20% ~ 60%

Randomly generate scenarios

Age	Income level	Survival Chance
21	High	21%
43	Low	35%
12	Low	45%

. . .

Pick ground-truth scenarios

Scenarios that will be shown to every worker

Example criteria:
- Contains diverse feature values
- Contains options that are hard to choose from

Worker answers ground-truth scenarios

The ground truth scenarios allow us to test our models on both population and individual level

Worker answers generated scenarios

The randomly generated scenarios help our models cover a large amount of available domain space for each worker

Worker explains their choice

➜ Mark each feature's importance
➜ Write at least 2 sentences on their base preference
